

**YOUNG, ANGRY,
TO SUE WIFE**

Interlude Hurts Worse Than
Adverse Decision
Film Director Wants Decree
Issued to Him

**Action for Slander Also
Is Contemplated**

"I cannot acknowledge defeat now, in view of what Mrs. Young has said about me in a published interview," James Young said.

"We are going to file two new suits at once. We're going to fight to the finish," Herman L. Roth, Young's attorney.

With these statements, issued yesterday by the motion-picture director, whose action against Clara Walpole Young, his wife, was dismissed in court last week, and by his attorney, it became known that Young will file action to secure an independent divorce, and to oppose the granting of a final decree to his wife. He also will file suit for slander on the ground of a false statement made by Mrs. Young in a recent interview given out by Mrs. Young last week, in which she makes charges against the director.

NOT SEEKING CASH
"We're not looking for money in the slander action," explained Attorney Roth, "but we will insist on having the name of Mr. Young cleared of what this woman has said."

"Mr. Young's suit to set aside his divorce and to ask a permanent divorce for himself will be based on the charges that have already been brought up, linking the name of Mrs. Young with that of Robert Russell."

The director is now in Albuquerque, N. M. Yesterday he wired his attorney full instructions for the immediate filing of the two actions contemplated.

"We will probably file the suits tomorrow," said Mr. Roth yesterday.

"My client," he continued, "is determined to go through with this case. Had Mrs. Young not made the assertions she did in an interview with newspaper men and women, it is doubtful if I would have further prosecuted the case. But in view of the wide-spread charges which are contained in her assertions, and the effect they might have if not disproved upon Jim Young's reputation and standing, we have decided to force her to retract."

WIFE GETS DECREE
Mrs. Young now holds an interlocutory decree of divorce, dated Oct. 13, 1921. Her final decree will be available one year from that date, or on the 13th inst. It is the granting of this final decree that Young opposes, and at the same time asks that he himself be granted a divorce.

Last week Young's application to set aside a property settlement between him and his wife, whereby he gave her real estate and certain money, was denied. The director made the application on grounds that the settlement was originally obtained by his wife through fraud, and that she was making it if he had learned of occurrences which, he states, show that she was not sane at the time.

In affidavits submitted in his action, Young relates occurrences where Russell and Mrs. Young were seen together under compromising circumstances in Mrs. Young's home at 2000 Hollywood drive.

In setting aside Young's move to reverse the property settlement, the court held that a woman must be presumed virtuous until proved otherwise, and that, in his opinion, Young had failed to prove so.

However, it is on identically the same charges that the director will bring his divorce action, according to his attorney. Young, he says, is hurt immeasurably more by his wife's assertions against him than by the decision.

WIFE PERSECUTED
"For fourteen months," Mrs. Young said, after the decision in her favor last week, "Jim Young has been persecuting me, tormenting me, crucifying me, buying cheap detectives to hound me and lie about me."

"He has threatened me. He has pointed revolvers at my head. He has said he would burn down the house in which I live. He has asked me to be his mistress."

"He has offered me \$2000 to give back his Ku Klux Klan membership paper and the American letters he has received from women—some so vile they couldn't be printed. I never want it to be remembered that I was married to him."

It is retraction of these statements that Young will demand, says Roth.

Whisky, Stills and Men
Result of Great Drive in
Riverside County

(EXCLUSIVE DISPATCH.)
RIVERSIDE, Oct. 2.—Fifty gallons of moonshine whisky and several huge stills were seized, and arrested bootleggers are under arrest as a result of what is believed the greatest prohibition raid yet conducted in Riverside county, staged yesterday at Hemet and San Jacinto, southeast of this city, under the direction of Sheriff F. P. Wilson and Dist. Atty. Loyal C. Kelley. All came following tips from a specially employed agent, who sought the liquor in asserted preparation for Hemet's special order, set for October 3 to 15.

Those under arrest are: C. D. Fuller, 34; George M. Benson, 44; H. G. Shepard, 45; Frank Wells and wife, colored, all of Hemet, and E. C. Lamb, 57, San Jacinto. Under the pretext that they acted plenty of "boozers" to dispense at the rodeo, the special agent, whose identity has not been disclosed, arrested the bootleggers in a quiet way, succeeded in obtaining large quantities of liquor from those arrested, officers said.

**Arrested for
Murder While
Awaiting Luck**

Joe Dieker gave \$5 cents to a hunchback and then sat down on the steps of the Immanuel Presbyterian Church at Tenth and Figueroa streets last night to await the coming of good luck. He was arrested yesterday on the charge of murder.

Dieker was arrested as a fugitive from Denver by Detective Sergents Carr and Christensen, who had devoted three weeks to their search for him.

Information from Denver to the local police named Dieker as an accomplice in the case of the murder of William Hamilton, who died from a fractured skull received in a free-for-all fight in a Denver soft-drink parlor. Hamilton was said to have been slugged and then thrown out into the street.

Dieker is named as the man who hauled Hamilton from the scene of an automobile and later abandoned the dying man in a dark doorway. Johnny Harrigan, also named as a participant in the fight, was arrested several days ago and later released.

LONG BEACH, Oct. 2.—A woman prowler is destroying the rest and peace of mind of scores of Long Beach residents. Shortly before daylight this morning, according to a report made to the police, the feminine prowler visited the apartment of W. L. Jellicoe, 413 East Seaside Boulevard, and made off with loot valued at \$100.

The woman burglar took only articles useful to a woman and overtook many things of value, it was said.

UPPER COURT TRIAL**

By a "Times" Staff Correspondent
VENICE, Oct. 2.—G. M. Saxby, proprietor of a riding academy on Washington Boulevard, who was arrested last week on a charge of attempting to attack a 10-year-old girl, was arraigned before Police Judge Walter Rennie this afternoon and bound over to the Superior Court under a \$5000 cash bond. Three distinct counts were entered against him.

Saxby, who was arrested by Officer Lehane, is charged with an attempted attack on Marjorie Belfie, daughter of Mrs. Anna Belfie, of this city, in the stable of his riding academy.

**PREVENT FIRES,
WEEK'S MOTTO**

Seven-Day Campaign Begins
in City
List of "Don'ts" Are Issued
by Chief

**Common Sense Safeguards
Pointed Out**

With speaking campaigns in all parts of the city under the direction of the fire department, the twelfth annual observance of Fire Prevention Week was ushered in yesterday. Fire Chief Scott said that the plans for the week, in calling attention to the importance of preventing fires, were the most elaborate in the history of the fire prevention work in Los Angeles.

FOLLOW UP
The following fourteen "don'ts" aimed to bring home to everyone ways and means of avoiding fires were issued yesterday by Chief Scott:

"Don't leave electric flatirons or proper fuses in your electrical circuits; the fuse is the safety valve of the system."

"Don't tie electric flatirons or other heating devices turned on while attending to something else."

"Don't look for a gas leak with an open flame light. You will be too sure to find it. Use an electric flashlight."

"Don't use gasoline or other volatile liquids to remove spots from clothing, or for other purposes similar."

"Don't throw your lighted matches or smoking material where they can possibly cause fire."

THIS IS DANGEROUS
"Don't smoke in bed; perhaps those guilty of this practice are too green to burn, but the beds are not."

"Don't let children play with matches or bonfires."

"Don't fail to have your defective chimneys and flues mended."

"Don't forget to have the soot removed from your smoke pipe; if the chimney is not kept open, and start a fire when you operate the furnace."

"Don't neglect to protect walls, ceilings and partitions from the overheating of stoves, furnace and pipes."

"Don't put hot ashes into wooden boxes or barrels."

"Don't fill oil lamps or stoves by open flame light."

"Don't let rubbish accumulate."

"Don't fail to keep a bucket of water and a fire extinguisher in a convenient place for use in case of fire; they may save the lives of your family, as they have those of others."

"Responsibility to God and the church is the greatest trait of the human nature," declared Bishop Gallor, president of the National Council of the Episcopal Church, at a post-convention dinner given in honor of visiting bishops last night at Paulina, by the Diocesan Men's Club of Los Angeles.

In a lighter vein in his introductory remarks Bishop Gallor said, "If John Calvin had been an Irishman and could have seen a joke, the whole history of the Protestant church would have been changed."

The hospitality and charms of Los Angeles and the Pacific coast were extolled to the skies by all of the visiting bishops. Another Bishop of the Episcopal Church, who was the increasing national unity and spirit of co-operation existing in the church as shown in the recent convention at Portland, Or.

This convention was declared by all to have been a great success.

Dr. Darby, Bishop of Harrisburg, spoke of his visit to California in 1888. He referred to the wild place where they were met with four letters, namely G-O-L-D, and where no prayers were wanted.

Other speakers were J. A. Jones, editor of the Glendora, Calif., and a chairman for the State Central Committee known to be inimical to your candidacy, meets with my unqualified approval. I sincerely hope you will not waver a iota in your announced determination to destroy once for all the machine which all too long has dominated the politics of the State.

"We want no cars rule with us in red. G. R. Rinehart, a lifelong Democrat and editor of the Covina Citizen, has announced that he and his paper will support Richardson for Governor in the coming campaign.

He says:

"As the lives are now drawn this is nothing about Thomas Woolwine's platform to invite any decent voter to his standard. He has made his choice, when he must choose. On such a platform, should he win, his victory would be a defeat to himself, a misfortune for the state and a result to the Constitution of his country, which he has sworn to defend."

Burglar Tells Woman He
Intends Personal Attack
and Then She Faints

Mrs. Paul Opp, wife of Dr. Paul Opp of 3518 West Seventh street, was recovering last night from shock and nervousness occasioned yesterday when she was threatened by attack from a burglar in her home. Mrs. Opp had just begun her household duties and was in the library about 9:30 a.m. when the burglar entered, when she was confronted by the intruder.

According to Mrs. Opp the man appeared to be about 5 feet 10 inches in height and weighed about 165 pounds. He wore a white handkerchief around the lower portion of his face and had gained entrance to the house through the kitchen door.

The burglar told her he was going to attack her, and then forced her at the point of his gun to partially disrobe.

After a short speechless, Mrs. Opp fainted. When she came to she was lying on the floor and the burglar was gone. He took a purse containing a few dollars and small change. She then managed to notify neighbors, who called Dr. Opp and the police.

**Woolwine Platform Attacked
by Democrats**

(EXCLUSIVE DISPATCH.)
SACRAMENTO, Oct. 2.—Resolutions, editorials and personal letters from Democrats as well as Republicans continue to pour into the office of Friend W. Richardson, Republican nominee for Governor, commending him highly for his recent firm and manly statement, where he promises "to rid California of the parasite machine office holders."

The League of Justice of Oakland is one of the many organizations that have adopted resolutions approving Richardson's stand, and asking support for him of every voter, regardless of party allegiance. The resolution in part says:

"It is the sense of this organization that you will win in spite of the subtle, underhand and unscrupulous politicians who make up the rank and file of the machine manipulators. The people generally appreciate your efforts and good intentions, and have indicated in their majority at the primary election."

EDITOR APPLAUDS

**High School's
Papers Will
Appear Today**

Two publications are to make their first appearance of the term today at the Los Angeles High School, when the Nuntius and the Blue and White Weekly Supplement start their fall series.

The Nuntius is the Latin paper which is written and edited by the students who are taking Latin. Dr. W. A. Edwards, head of the classical language department, is the faculty adviser. Last year the paper was issued every two weeks and more than half of it was printed in Latin. A small part was devoted to notices of interest to the Latin students and was printed in English.

The Blue and White Weekly Supplement is a midweek edition of the old Blue and White. The new edition was started late last term and its success has encouraged the students to continue and expand this year. Frederick Oatman and Donald Young are the editors.

RAID POKER GAME

Police Arrest Seven Men Assorted
to be Gamblers

Harry O'Hara held four aces in a poker game last night, but failed to collect the pot. He was arrested with six other men on charges of gambling when Detectives Johnson and Hoy battered down a heavy oak door and raided the game.

According to the officers, the game was in progress at the Jean Hotel, 140 and 142 West Second street, when they were attracted by the sound of clicking poker chips. The police found a heavy pot of money, Jack Cannon, Harry O'Hara, H. J. Rowe, Phil Ray, Al Williams and B. H. Dickson. All were held in default of \$50 bail.

tor, and playing support to Clyde
Herring, Democratic candidate.
Plans for a State-wide cam-
paign among Republicans to bolt
the candidacy of Col. Brookhart,
who was nominated over a field
of other candidates at the June
primary, were perfected at today's
meeting.
An executive committee com-
posed of leaders in the eleven
congressional districts of the State
was appointed with power to or-
ganize precinct committees for the
purpose of bringing about the de-
feats of Col. Brookhart, W. R.
Herring, editor of the Ottumwa
Journal, was named chairman of
the committee.
Col. Brookhart was denounced
as a traitor to the State and
practically every one of the
Republican names in the resolution
was a radical with Socialist sym-
paties. Herring was not men-
tioned by name in the resolution,
but was referred to as "the only
candidate for United States Senator
who is opposing Socialism."

JUAREZ MOB MENACES AMERICAN PRISONERS

LOS ANGELES TIMES

WEDNESDAY MORNING, VOL. XXII, OCTOBER 4, 1922. Liberty Under Law—Equal Rights—True Industrial Freedom.

THE GUN GANG AS AUTO THIEVES

AMERICA MUST DO PART IN EUROPE, FINANCIERS TOLD

(BY A. P. MIGHT WIRE.)
NEW YORK, Oct. 3.—An overwhelming sentiment favoring the abandonment of his policy of isolation from European affairs and the substitution of a policy which might involve partial cancellation of the Allied war debt today was expressed at the convention of the American Bankers' Association. The subject was broached by Thomas W. Lamont, president of J. Pierpont Morgan, whose plea in behalf of American "selfishness" turned the convention into an uproar as 100 delegates representing 23,000 banks in the United States voiced their approval.

TRIOTS VS. BROOKHART

Candidate "Red"
Republicans Refuse to Name "Radical" for the Senate
SACRAMENTO, Oct. 3.—The Iowa Republicans today refused to name a candidate for the United States Senate, claiming that the candidate named by the Democrats, Charles Brookhart, was a "radical" and a "Red."

NORTHERN RAINFALL CONTINUES

Dried Fruits Damaged to Some Extent, but Wind Has Saving Effect
SACRAMENTO, Oct. 3.—With the State from San Jose north of the State, the rain continued today, tonight and tomorrow, according to the United States Weather Bureau. Rainfall in San Francisco Bay region for the twelve hours ending at 5 a.m. today was 1.17 inches.

The forecast was for occasional rain in the Bay district tonight and tomorrow, with moderate southerly winds. Reports from various sections of the State told of damage to dried fruits. A \$1,000,000 worth of raisins was threatened. In Marysville was threatened. In the northern counties rain has fallen almost without cessation during the last twenty-four hours. In the mountains both rain and snow have fallen.

A rainfall of several inches, an unusual precipitation for this time of the year, is reported at Westwood. Advice received from all parts of the Sacramento Valley indicate that no damage was done to crops by the rain Sunday night and yesterday. The damage would have been extensive had it not been for drying winds and a gradual clearing of the weather.

Early this afternoon the skies cleared in the Bay region and a good stirring breeze sprang up that should stave off the threat of rain on vines and trees, thus averting the dreaded rotten spots and decay of the fruit.

Rainfall data covering Northern California Weather Bureau stations for the twenty-four hours ending at 5 p.m. follows:

Station	Total	Record	Normal	Last Year
San Francisco	1.17	2.00	1.00	0.50
San Jose	0.80	1.50	0.80	0.30
Stockton	0.50	1.00	0.50	0.20
Yuba City	0.30	0.80	0.30	0.10

FEARS ANOTHER DEATH

Detective Sergeant Fitzgerald's Widow Dreams Often That "Little Phil" Has Killed Again

BY ALMA WHITAKER
"I dreamed that he would kill another man before they caught him." Thus the anguished widow of Detective Sergeant John J. Fitzgerald, whose nights are hideous with nightmares of murder ever since her husband was shot down by a crazed, slithering, little Mexican, "popularly" known as Little Phil Alguin, fifteen months ago, while in performance of his duty.

Night after night, day by day, the tragedy is with her and her two little children. She is young, but her hair is snow white, having turned from a pretty brown to a pale, ashy gray, in the last few months.

And she wants to see this dastardly little murderer caught and punished, to see the death of her husband's father avenged, but not at the cost of another man's life, another man's widow, another man's children.

"I saw her in her new home yesterday, the home that her husband worked so hard and faithfully to build, which they planned so lovingly together, but which he never lived to see."

LITTLE PHIL IS LYING AT DEATH DOOR TO DECIDE RIGHTS OF JAPANESE

(EXCLUSIVE DISPATCH.)
EL PASO (Tex.) Oct. 3.—While a murder-bent mob of Mexicans names and kills about the Juarez jail whence three Americans are soon to be released, the telephone wires between here and Washington are humming with appeals that the State Department take steps to speed the lives of the jeopardized men.

Investigation of the arrest and imprisonment in Juarez, Mex., of the three men who accompanied Chief of Police Oaks of Los Angeles in an attempt to kidnap Little Phil Alguin and get him across the boundary into the United States, becomes an international affair tonight.

They are Claude Smith, captain of detectives of El Paso; Sam Deben, World War hero and soldier of fortune, and C. C. Harvey, chauffeur—all three left behind in the hands of Mexican police when an American raiding party, headed by Chief Oaks, attempted to kidnap Alguin Monday night to bring him back to American justice for the murder of John J. Fitzgerald, detective sergeant of the Los Angeles police force.

Three Die in Blasts
JOPLIN (Mo.) Oct. 4.—Three men were killed in two explosions at the powder plant of the General Explosive Company, eight miles northwest of Joplin, 12:46 o'clock this morning. A gelatin mix-house was first to explode. Flames from this building set fire to a nitro glycerine tank which also exploded. Both explosions were terrific and shrapnel buildings in towns for miles around. The extent of the damage was not ascertained early this morning.

Pickpockets Busy
Jewelry valued at \$2500 was contained in a mesh bag that a pickpocket cut from the arm of Miss Irma Franklin, 2401 West Sixth street, last night. The woman made her exit from Grauman's Theater, according to a police report. The bag contained two diamond rings, a jeweled watch and \$65 in cash. Shortly before Miss Franklin's report was made, W. D. Elmer, 18 West Ninth street, reported that two men at Fifth and Broadway had bumped into him and taken his pocketbook with \$75 in it was gone.

Two Youths Arrested
When two men made a repeated attempt to steal a tire from the automobile of W. A. Hepler, while he was visiting at the apartment of W. L. Cummings, 1267 West Third street last night, Hepler and his host pursued the thieves with a rifle, firing several shots as they fled. In response to a police call, Detective Wells, Wiles, Dryder and Retzlaff made a search of the vicinity and found two young men, one named Elmer and the other Driva. Neither could give a satisfactory account of his conduct during the evening, according to the officers.

NEAR EAST WAR CHIEFS ASSEMBLE FOR PARLEY

World Tensely Waits Outcome of Military Conference That Means Peace or Strife
CONSTANTINOPLE, Oct. 3.—The preliminary conference for the settlement of peace in the Near East began at Mudania today, with the Allied generals and Ismet Pasha, representing the Turkish Nationalists, present. The meeting was called to order at 3 o'clock in the afternoon, but was shortly adjourned to Wednesday to permit the attendance of the Greek representatives.

Gen. Masaranti and Col. Corryannis, who were yesterday appointed by the Greek Cabinet to act in the Mudania conference in behalf of Greece, arrived at Mudania on a Greek destroyer this evening, and will take their place at the conference table tomorrow.

Gen. Harrington, commander-in-chief of the Allied forces, will deal with the military questions in the negotiations as he deems best, a free hand having been given him by his government in these matters.

Subjects of a political or economic nature will be referred to the Allied high commissioners, who will communicate with their governments. The commissioners will be in continuous contact with Mudania by wireless.

The Allied Ministers in Constantinople are understood to have drawn the attention of the Greek government to the necessity of keeping the Greek troops in Thrace under control so as to avoid the possibility of a conflict. This was due to representations that the Ankara government that the Mohammedan population in Thrace were suffering exactions at the hands of the Greeks and the Greek troops are in a dangerous state of unrest.

Up to the present the Turks have made no real preparations for their withdrawal from the neutral zone, and according to an official report their slight retirement today was not of appreciable depth.

CRISIS NOT YET PASSED
LONDON, Oct. 3.—British circles attached high hopes to the meeting of the Greek Nationalist emissaries at Mudania, but at the same time point out that the seriousness of the situation is not yet over.

A similar request was made by the American relief committee on behalf of the Greeks who have been employed in their refugee bakeries, but the reply of the local authorities in each case was "no exceptions can be made."

CONFESS TO STEALING 50 CARS HERE

Twelve youths, ranging in age from 14 to 18 years, were arrested last night and placed in jail on grand larceny charges. The police assert that the twelve have confessed to stealing as many as fifty automobiles within the last two months.

The boys, according to Detective Sergeants Lloyd and Roberts and A. J. Ross of the Theft Bureau of the Pacific Coast Automobile Underwriters Conference, who arrested them, are members of two divisions of what is known as "the Central avenue gang."

Division number one operated on Central avenue south of Vernon and were asserted to have only stolen Ford machines. Division number two worked north of Vernon and preyed on every machine more expensive than Henry Ford's product.

Those arrested gave their names as follows: Alton Priole, 1488 East Forty-third street; Dick Monro, 1844 East Fortieth street; Arthur Buxton, 4824 East Thirty-eighth street; Allen Woehler, 2997 Compton avenue; Robert Lindsay, 1415 East Forty-fifth street; Lawrence Bruce, 1371 East Forty-eighth street; Arthur McCall, 1810 East Forty-ninth street; Donald Winans, 749 East Forty-second street; Herbert Costello, 648 East Second street; Robert Young, 1127 East Forty-sixth street; and Florian and Manuel Casado, 3514 Ascot avenue.

It was the practice of the boys, according to the officers, to operate the car until the gasoline ran out, or the machine was wrecked, and then to strip it of accessories.

CAR SPILLS; ONE KILLED, ONE DYING

(BY A. P. MIGHT WIRE.)
FRESNO, Oct. 3.—One man was killed, a second fatally injured and three others were hurt when their automobile crashed throughout the railing of the Chowchilla bridge, near Mendenhall this afternoon, plunging twelve feet to the river bed below. The men were pinned under the overturned car.

E. G. Sellers, Lemore rancher, killed; Oscar Olson, San Francisco cement contractor and prisoner, is in a Merced hospital with a broken back; Deputy Sheriff John W. Walker of Hanford, H. R. Gray and F. O. Miller of San Francisco, two other prisoners, were slightly hurt.

Deputy Walker and Sellers were returned from San Francisco to Hanford with three prisoners. As Sellers neared the Chowchilla bridge the sun broke through clouds and a tree standing near the highway threw a shadow. Sellers is said to have mistaken the shadow for another machine and three on the emergency brakes. The car skidded through the bridge railing.

SQUELCH MEXICALI PLOT

Five Prominent Mexicans Arrested on Revolt Charges; Populace Stirred by Events

(EXCLUSIVE DISPATCH.)
MEXICALI, Oct. 3.—While the police and Federal authorities patrolled the streets more heavily armed than usual, with a keen eye for an expected attempt to smuggle arms and ammunition across the border, the city was in a state of tension today because of the arrest of seven of Mexicali's most prominent men.

A firing squad? Most likely, say the whisperers, as the seven men are on their way, under heavy guard, to Mazatlan, where they are to face charges of documentary nature, linking them with what appears to be a widespread plot against the Oregon government.

The arrests, it is felt rather than openly asserted, nip in the bud a deep-seated revolutionary movement. Letters are said to have been intercepted showing that the men had arranged for shipments of arms and munitions, which were to be brought across near Mexicali.

PRISONERS PROMINENT
Not alone the magnitude of the indicated plot, but the prominence of the prisoners thrills the city. One is Manuel Ronca, former Mayor of Mexicali. Guillermo R. Lugo, cousin of Gov. Lugo of Lower California, is a second. The others are N. Vinagra, Maurillo Magallon and former Councilman Neveles Grava.

All were candidates for city office at the coming election. Their arrest automatically withdraws them from the race, and already it is known that no substitutes are to be offered at the polls.

Guillermo Lugo, nephew of the Governor of Lower California, and another former Mexican official were added today to the list of arrested men. The arrest of the latter city officials arrested last week charged with revolutionary activities, has stirred the populace.

Open talk is not heard about the matter. But wherever knots of people are gathered, the subject is sure to come up.

Los Estados Unidos han enviado su protesta a Europa contra los esfuerzos de ésta para levantar un empréstito en este país destinado a pagar deudas que no sean su deuda a esta nación.

Sobre la Flama de Murguía

SAN ANTONIO (Texas) Oct. 3.—El Inspector de Migración, E. W. Smith, informó a la mañana a Washington de que el Coronel F. A. Murguía, huido del Gral. Francisco Goyaz, no ha regresado a este país, que se halla en México a la cabeza de fuerzas revolucionarias que combaten contra el gobierno de Obregón, ni ha pagado la fianza de \$1000, que se exigía para que Murguía recibiera la protección de este país.

El Departamento de Inmigración de Washington ordena el cobro de la fianza, si Smith dice que iniciará desde luego procedimientos de tribunal federal para hacer efectiva la fianza inmediatamente. Agregó que los señores pretendían que Murguía se deportó a sí mismo, y que, en tal virtud, no están obligados a pagar la fianza.

Fighters Lose Control of Minnesota Forest Fires; Washington State Losses for Year Large

(BY A. P. NIGHT WIRE.)
DULUTH (Minn.) Oct. 3.—Heavy winds have driven the forest fires in the territory north and west of Duluth out of control. The situation was so serious this afternoon that the combined forestry and military forces were concentrating all efforts on removing settlers and protecting buildings, according to G. M. Gendall, forestry field administration chief.

FLAMES GAINING

(BY A. P. NIGHT WIRE.)
ST. PAUL, Oct. 3.—A thirty-five-mile-an-hour wind early today was driving the fires in the Kellogg, Sax, Meadowland and Fernay districts, according to reports received at the office of the State Forester. Fire fighters reported that there was little prospect of preventing the fires from running together. Sparks were dropping a quarter of a mile away.

Seventeen fires are burning in these three districts and some have swept into the highlands, threatening to creep into valuable timber stands, according to reports.

The largest blaze is burning over a twelve mile front and is almost solid from Sax to Ellmers, according to reports. It is feared that new fires are springing up almost continuously.

STANDARD STOCK BOOMS

California Company Has Gain of Eight Points and One Hundred Per Cent Dividend is Promised

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Oct. 3.—Standard Oil of California today established a new high for the year, moving up sharply to a close of 127 1/2, a gain of eight points over its previous closing price. Buying of the stock was based on rumors of an impending stock dividend as part of a recapitalization plan.

Later it was announced that a 100 per cent stock dividend had been decided upon and will be submitted to the stockholders.

According to present plans, the announcement said, the dividend will be paid December 30 to stockholders of record December 3. The company is enabled to make this dividend, it was said, because, largely, of recent high discoveries of oil in its Tuleman, Elk Hills and Huntington Beach, Cal., fields.

The company's announcement follows: "Following action taken by the board of directors of the Standard Oil Company (California) today, the following notice is being sent to the stockholders of the company: "Due to the revaluation of earnings of the corporation during the past year and the growth of its business, and to the discovery of valuable

ROAD WORKERS REFUSED RAISE

Labor Board Voted Demand
of Maintenance Men

Deadlock Over Amount of
Increase Reported

Public Group Behind Higher
Salary Proposal

(BY A. P. MIGHT WIRE.)

CHICAGO, Oct. 3.—Proposal for a 2-cent-an-hour increase for the track and common laborers of the maintenance-of-way union, amounting about \$10,000, late today was temporarily refused by the United States Railroad Labor Board. Only seven of the nine members have taken part in the discussion which opened yesterday. Albert Phillips of the labor group, and Samuel Higgins of the railroad group, being absent.

The public representatives, Chairman Ben W. Hooper, R. M. Barton and G. W. Hanger, it was authoritatively reported, sponsored the rejected increase. It was understood that their offer was based upon the general change in industrial conditions since last March, when the evidence upon which the last cut of the track and common laborers' wages, amounting to 5 cents an hour, was presented. This increase became effective July 1, last.

OFFER EVIDENCE
Evidence offered the Labor Board, the public group was understood to have said, was that decrease in wages and living conditions predominated over advances until June, this year. Since then, they said, there has been a slight upward trend.

Last Monday, the maintenance-of-way organization, representing more than 40,000 men, went into convention at Detroit, with its president reported as impatiently waiting a decision on his plea for an increase to explain his action July 1 in holding in abeyance a strike vote and in refusing to accompany the shopcrafts in a walk-out as a protest to the decrease effective on that day.

At that time W. J. McMeekin, labor member of the board, was generally credited with being the mediator who successfully persuaded President Grable not to call a strike. Today he is reported as against the proposition offered by the public group, holding that increase was not sufficient. A. O. Wharton, the third member of the labor group, also was said to have stood by Mr. McMeekin in this attitude. They were reported to have offered a large increase, which was rejected.

FORECAST INCREASE
Although the deadlock was said to be only temporary and will end inevitably in a decision, probably an increase, some doubtfully expected as to whether the Labor Board would again consider the maintenance of way case until the two absent members return. Both are expected by the middle of this month. The board will not hold an executive session tomorrow, but will convene again Wednesday morning to consider other matters, it was said. It was stated as probable that the maintenance of way convention will adjourn before the board reaches a decision.

THE present minimum wages for the common laborers and trackmen, under the recent decision of the Labor Board, ranges from 12 to 14 cents an hour. If the public group's offer would be accepted, the new rates would be 15 to 17 cents an hour, retroactive to July 1, last.

**LAWSON DISAPPEARS
AS ESATE IS SOLD**

FRIENDS BELIEVE FINANCIER
IN RETIREMENT ON
OREGON RANCH

(BY A. P. MIGHT WIRE.)

BOSTON, Oct. 3.—The whereabouts of Thomas W. Lawson, financier, who had put his South Shore estate, Dredgeland, on the auction block to make up for stock market losses, remained a mystery tonight. Relatives, business associates and friends were without word from him since he left the home of his sister, Miss Mary Lawson, at Southwest Harbor, yesterday.

It appeared to be fully well agreed tonight among those interested that, upset over the loss of the homestead which he built and furnished at a cost of about \$1,500,000, and in which he had brought up his family, now scattered by death and marriage, he had decided to go somewhere for a change of scene. The ranch home of his daughter, Mrs. Henry McCall of Princeton, N. J., was considered the most likely place.

With the financier, who is now in his 60th year, is a maid, a servant of many years' service in the Lawson home. She has always accompanied him to care for his things, his amusements, and when he decided suddenly yesterday morning to leave his sister's summer home, he directed this maid to accompany him.

**LINCOLN BODYGUARD
DEAD AT SAN DIEGO**

(BY A. P. MIGHT WIRE.)

SAN DIEGO, Oct. 3.—George Terry, said to have been the last survivor of President Lincoln's body guard when the President's body was taken from Washington for burial in Illinois, died here today at the age of 75 years. Mr. Terry was born in Portsmouth, O., and enlisted in the Army at the age of 14. He was a Post-Chancellor of the Knights of Pythias. Mr. Terry is survived by his wife and a brother, Charles Terry, of Portsmouth.

**STATES SEEK APPEAL
IN RIVER RIGHT CASE**

(BY A. P. MIGHT WIRE.)

WASHINGTON, Oct. 3.—The State of Utah was granted permission in the Supreme Court today to file a brief in support of the motion of the State of Colorado and others for a rehearing in the case brought by the State of Wyoming, arising out of the diversion of the Laramie River, which resulted in a decision last spring in which the court held priority of appropriation was controlling in establishing the right to use water taken from interstate streams.

KING'S STORAGE PROJECT FILED

Erection of Dam in Sierra
Nevada Planned

Undertaking Will Embrace
Fifteen Districts

Work is Expected to Double
River's Efficiency

(BY A. P. MIGHT WIRE.)

SAN FRANCISCO, Oct. 3.—An application for the formation of the Kings River water-storage district, a \$30,000,000 project to irrigate more than 1,000,000 acres of land, has been filed with the State Department of Public Works, it was announced today by T. T. C. Gregory, one of the organizers of the district.

The plan calls for the construction of a dam at Pine Flat, in the Sierra Nevada Mountains, to store 600,000 acre-feet, and for a power plant of 30,000 kilowatts capacity to furnish energy for pumping plants throughout the district which are expected to provide 600,000 additional acre-feet of water.

FIFTEEN DISTRICTS

The districts will embrace some fifteen separate irrigation, reclamation and privately owned districts, which at present enjoy the normal flow of the Kings River, and which are expected to conserve the water now running to waste.

Among these are the following: Kings River, 245,000 acres; Consolidated, 150,000 acres; Alta, 130,000 acres; Laguna, 11,000 acres; Riverdale, 18,000 acres; James, 24,000 acres; Tranquility, 10,000 acres; Corcoran, 15,000 acres; Murphy's Slough, 15,000 acres; and Lake Linda, 30,000 acres.

These there are the Le-moore Canal and Irrigation Company, 22,000 acres; People's Ditch Company, 70,000 acres; Tulare Lake reclamation district, 55,000 acres; Crescent Canal Company, 14,000 acres; Station Canal Company, 15,000 acres.

The Kings River supplies water for much of the irrigation in Fresno, Kings and Tulare counties and the engineers in charge of the project believe the formation of the storage district will double the irrigation efficiency of the stream.

ENGINEER BOARD

Engineering investigations have been conducted by a board of engineers comprising J. B. Lippincott, Quentin, Code and Hill of Los Angeles, D. Schindler of San Francisco and George L. Swanson and W. R. Shafer of Fresno.

The board has had the co-operation of Maj. H. A. Kneusel, chief of the division of water rights, and of W. P. Boone of the State Department of Public Works, and of the water users, more than the \$10,000 allowed by law in his campaign.

UNION SAYS LAKE

STRIKE EFFECTIVE

(BY A. P. MIGHT WIRE.)

CHICAGO, Oct. 3.—Declaring that the Lake seamen's strike is proving its effectiveness as more boats reach port and their seamen leave K. B. Nolan, secretary of the seamen's union, asserted tonight that three boats were tied up by the strike in South Chicago, and five in Cleveland. He had not received complete reports from other points, he said.

Mr. Nolan charged that the Lake Carriers' Association, against which the strike is being waged, is violating the law by sending out boats that do not have the required 65 per cent of the crew certificated skilled seamen.

The New Way To Save

Refinish the Old Things in Your Attic

MANY a fine piece of furniture is discarded when it is old only on the outside. If refinished it would be as good as new.

You can refinish furniture, woodwork and floors as well as anything. You'll enjoy doing it, too. The work is fascinating and the cost next to nothing.

For 75 years we have been making special paints, varnishes, enamels and stains for you to use. They are the best products of their kind that we know. They make refinishing easy and successful.

Of course there are a few simple directions that you must follow, but we have organized a "Home Service Paint Department" to help you. Just write this department, telling them

what you want to refinish and how you want it to look when finished.

Our experts will guide you step by step through the work, explaining each detail and recommending materials, brushes, etc.

You'll find that refinishing home things is really not work at all—just fun. Their improved appearance will astonish you.

Change in Methods of Fire Scheduled

Dreadnaughts Prepare for Panama Cruise

Long-range battle practice and

squadron maneuvers, the gunnery

and tactical exercises of the Pacific

Fleet's training schedule, will

not be held until next March and

April, after the dreadnaughts return

from the joint maneuvers with the

Atlantic Fleet at Panama.

The exercises were originally

planned to be carried out this fall

of the Southern California coast, but

the inauguration of several new

departures in gunnery and defense

systems and the work of preparing

for the long run to Panama, has

necessitated their being set over

until next spring. It was learned

yesterday on the flagship California.

Absence of several units of the

battle fleet for several days also

prompted the Navy Department to

hold over the maneuvers, which

next spring will be run off with a

number of important changes in

methods of firing and spotting.

Captive balloons, heretofore

anchored to the quarters of the

dreadnaughts and used in

spotting fall-of-shot during long-

range practice, have been done

Railroads Not to Compete

for Short Hauls

Motors Must be Placed on

Equitable Basis

Day's New Listings; Food in

Storage

Railroads entering Los Angeles

are not at present planning to pick

up freight at its source through the

use of motor trucks, as has been

reported in local traffic circles.

Motor truck freight companies,

which have been annexing consid-

erable short-haul traffic that for-

merly went to the railroads, have

been fearing such an eventuality,

but according to J. T. Saunders,

general freight agent in Los An-

geles for the Southern Pacific Lines,

there is little probability of the

railroads attempting to compete

with the motor trucks for the short-

haul business at this time. Al-

though the trucking companies

have made substantial inroads on

the revenue of the railroads, Mr.

Saunders asserts that the rail-

roads are helpless until the trucks

are compelled to pay taxes on their

gross revenue and bear their por-

tion of maintaining State high-

ways. When this is accomplished,

both carriers will be on a more

equitable basis of competition.

Some of the lines serving New

York have been attempting to com-

pete with the trucks for the short-

haul business by operating fleets of

motor trucks to secure the freight

at the source and convey it to

the cars. The practice has not been

sufficiently successful to warrant

any expansion of the motor truck

business, because the truck com-

panies have been able easily to

undercut the railroads. The

operating expenses of motor

trucks are negligible when com-

pared with steam lines that dis-

burse thousands of dollars in ac-

counting rights of way, main-

tenance work and in addition are

forced to pay taxes on their gross

revenue. Steam lines cannot af-

ford to compete on this basis, but

if readjustments are made, it is

likely that some form of competi-

tion will ensue.

The function of the truck, in

the opinion of Mr. Saunders, is to

serve the railroads by transporting

freight from the surrounding coun-

try, and not in attempting to par-

allel the railroads with their

routes. The city short-haul busi-

ness primarily to the express com-

panies, and if the railroads should

enter this field with truck pick-

up service, they would be compet-

ing with the express carriers, one

of the purposes of the rail-

lines. It may be that in time, the

express companies will be control-

led by the railroads, and if such

development materializes, the

carriers would be in a better po-

sition to go after the city short-

haul business in competition with

the truck companies.

The growth of the motor truck

business is similar to the develop-

ment of the electric railway. Elec-

tric lines were able to divert the

large amount of suburban traffic

that had gone to the steam lines,

and in order to protect them-

selves, the railroads have pursued

the policy of acquiring the elec-

tric lines as feeders. Some such

a development may take place

with the truck problem. If the

railroads are allowed to compete

with the trucks on a fair basis,

there is a likelihood of the rail-

roads capturing truck routes into

the back country in order to

facilitate greater freight shipments.

FEWER FAILURES

Commercial failures during the

month of September, numbering

1648, according to Bradstreet's

annual aggregate, were 12.3 per

cent less numerous than those

of August, and 46 per cent

below the peak total of Jan-

uary this year.

The total failures are 2.3 per

cent less than the aggregate for

September, 1921, and the smallest

monthly aggregate since June,

1921. The decrease in failures is

paralleled by the falling off in

liabilities, which for September

amounted to \$1,125,466, or 4.6

per cent less than in August,

one-third less than in Jan-

uary, and 20 per cent under

those of September, 1921.

The effect in the decline of fail-

ure totals is reflected in the ag-

gregate of the third quarter of

1922, which totaled \$1,125,466,

the smallest aggregate of

failures for any quarter since

the second quarter of 1921, and

the lightest liabilities since the

second quarter of 1920.

OUTLOOK FOR PULLMAN GOOD

Company Bulwarked Against Temporary Adversity

Segregation May be Early Corporate Move

Oil Continues to Maintain Strong Position

BY C. V. EVANS

(REUTERS DISPATCH)

(Copyright, 1922, Public Ledger.)

CHICAGO, Oct. 3.—If the annual report of the Pullman Company, to be distributed within the next few days, shows that the dividends for the year ending July 31 were not earned, though the deficit was made up, and more so, by large payments from the United States government—the sort of people who have always liked Pullman stock will probably not be much discouraged. Its chief business, carrying passengers in luxurious cars, has been unprofitable, but it is now said that conditions have changed and the outlook is good. The company has a surplus brought forward from the preceding year of over \$25,000,000 in spite of a deficit for the fiscal year 1921 of \$3,478,832. The surplus has been carried over for several years and this year it is expected to be even larger.

The recent statement that the separation of this company into two corporations, one manufacturing and the other carrying, had not been discussed in executive committee was correct. Nevertheless, there is much talk among those directly interested of such action, and it is the opinion of some informed outsiders that this will be done. Then the two companies, with the increase of railroad traffic, will have each in its way an excellent volume of business.

MAY SEGREGATE

As to combination and segregation, more particularly the former, the investing public is somewhat disheartened. The Republic-Midvale-Inland combination appears to have been discarded without adequate reason and the Bethlehem-Lackawanna has not been lacking in assurances in that line. Half a dozen other combinations have been discussed which would have been of value to the participants and to the public by reducing cost of operation and expediting delivery, but these appear to have received a check on account of the attitude of the Federal Trade Commission. There is a blight in the breath of that body as it falls upon any new enterprise.

It was supposed not long ago that the attitude of the government toward combinations had changed and that there would be clear scope for any undertaking which had nothing in it suggestive of monopoly, but the Federal Trade Commission appears to be bigger than the Supreme Court, which has dismissed cases of that sort or given the companies only a small chastisement. What learning is lodged in the Federal Trade Commission is against the proposed combination, the long delay incident to their objections deprives the promoters of opportunity to market securities advantageously.

But these things have taken a back seat in the minds of the traders, for in the mere matter of buying there is chance for profit in a market such as we have had today, the recovery from the gloom of the latter part of last week being considerable.

The oils held a good place in spite of the snub given them by the directors of the Standard Oil of New York. Several of the old favorites are making an appeal to buyers and the Wyoming stocks are notably strong. Then Wilcox comes along with a claim that no decline in crude oil in the least is to occur can impair its earnings below the 8 per cent paid on the stock, while great reserves held in check for lack of a satisfactory market are ready for shipment when the time comes.

Shell Company Applies for Right to Construct Tanks for Shipping

The tremendous growth of Los Angeles Harbor as a port for oil shipments was shown at yesterday's meeting of the Board of Harbor Commissioners when plans for the building of wharves and loading tanks on Normon Island by the Shell Oil Company of California were discussed with the board by Arthur H. W. O'Brien, preparatory to the company's formal application for a thirty-year lease of five acres of land. This site will be connected by truck highways and pipe lines with the Shell company's refining plant to be located on land which the company has purchased north of Wilmington.

Leases have been recently granted by the board to the Ventura, Associated and Pan-American companies for frontage sites for wharves and loading stations for oil steamers, and the Standard Oil Company, which has long been established at the harbor, has asked the board to extend its wharf 600 feet, doubling its capacity, to handle the company's increasing business and additional tankers.

In carrying out its plans for the development of the Normon Island lease, the Shell company will spend more than \$1,000,000, and equal sums will be spent by the Ventura, Associated and Pan-American oil companies, the other newcomers among the oil companies at the harbor.

New Records in Schools Savings Banking; Heroes of Credit; Foreign Financing

School children deposited

\$5,500,000 during the last school

year in their school savings bank-

ing systems, according to the third

annual compilation just completed

by the savings bank division of

the American Bankers' Association.

This is an increase of 40 per cent

over the preceding year and of 100

per cent over the year 1919-1920.

School savings occupy a prominent

part in the discussions of the divi-

sion at the convention of the

American Bankers' Association in

New York City this week.

The association's tabulation gives

the full record for 394 systems

which indicates an increase of 17

per cent in the number of oper-

ating systems over the

previous year. The association has

issued the following statement on

school savings:

"The primary purpose of school

savings banking systems is to ac-

quire the practice of thrift with ac-

tual experience in systematic sav-

ing in the purpose of interest and

in the economic functions of sav-

ings banks. It follows that the suc-

cessful school system is the one in

which all pupils participate by ob-

taining a personal relationship as

a bank depositor. Just as daily

life is a wider application of these

facts has led to a constant increase

in the number of pupils participating

in the savings systems as follows:

1919-1920 451,051

1920-1921 525,804

1921-1922 637,839

"Whereas sixty-seven cities re-

port that 75 per cent, or more, of

the total enrollment in schools par-

ticipate in school savings systems

therein, a low average in other

cities must be noted as there are

10,000 pupils in the schools in

which have systems who have not

become participants.

"The average gross deposit for

the year decreased from \$11.17 to

\$4.35 and the net saving per de-

Aqueduct Again Supplies Power After Repairs
Damages being repaired, the aqueduct is again furnishing sufficient water to supply its power plants, after having been greatly reduced in capacity for about forty days. The first break in the aqueduct occurred between the Halwe reservoir and the Fairmont reservoir on August 19, at which time water from the closed conduit system broke out. The second, due to a cloudburst, clogged the open ditch above the Fairmont reservoir, completely cutting off the supply from Owens River. This impaired the generating capacity of the city plants in the San Francisco Canyon, as there was not sufficient water to drive them to their normal capacity.

SPARE HOUR CLASSES OPEN AT UNIVERSITY
Seven daytime spare hour classes will be organized next Saturday by the University of California extension division, four to meet at Fine Arts Hall, University of California, Southern Branch, and three in the Junior Orpheum Building. Landscape sketching is to be one of the courses taught by Beale Elia Hasen, whose water colors at the Museum of Arts exhibit at Exposition Park have received favorable comment from the critics. She also will have an art crafts class. Stagercraft, with an opportunity for students to design, construct and light productions, will be taught in class beginning Saturday. There also will open a class in drawing design. Tomorrow and Friday evening fourteen classes will be opened, with an interesting variety of studies, making a total of forty classes for the current week. Additional subjects will be taken up next week.

Railroad Will Remove Tracks from Broadway

By a "Times" Staff Correspondent
LONG BEACH, Oct. 3.—Removal of the Southern Pacific tracks from Broadway, in the heart of this city's business section, and the completion of the double track railway for the Pacific Electric on Broadway from Olive to Bonita avenues within six months, was promised the City Council today by Frank Karr, general counsel for both companies.
Council adopted the franchise ordinance for the East Broadway double track project, under the terms of which the Pacific Electric has three years in which to finish the work. The work will not require more than six months, however, the railway company's attorney assured the Council, and he declared that there is no intention on the part of his clients to delay beginning.
Discussion and possible adoption of the franchise ordinance for the Pacific Electric's East Beach extension on East Second street was put over two weeks at the request of Attorney Karr.

SANTA MONICA, Oct. 3.—If you worship the shade of Beau Brummel, lounge like a fashion plate and swing a nasty hook then you can qualify as a "Swanker," or if you have the Patsy McGee expression, a Freudian complex, and undulate like a camel instead of walk then you are called a "Slinker."
Both "Slinkers" and "Swankers" are going to bat high on Slinkers' Eve, the second night of the Elks' convention, the 11th inst., when plans materialize for the grand ball to be held in the Bon Ton ballroom here. In addition the Slinkers with highest batting average, according to Elks judges, will be crowned Queen of the Slinkers, while her mate will parade as the King of Swankers. Local Elks are planning for their convention the 11th to 14th insts.

HEF LIKELY TO OPPOSE BUSH IN OPENING GAME

World's Sportdom Focuses Eyes on
Polo Grounds as Teams Line
Up for Battle

[BY A. P. NIGHT WIRE.]
NEW YORK, Oct. 3.—Baseball, America's national sport,
will take the dignity of an international episode tomorrow
when the local National and American League teams open bat-
tle in the 1922 world series championship.

The interest which will
be centered on the historic Polo Grounds
between the Yankees and Giants
has been announced by the
National League and American
League. The game will be
broadcast on the radio and
will be one of the most
important events of the year.

With the most crackling of all
rivalry, for internal discussion
regarding the ability of the two local
teams and their individual stars
has divided the fans against
themselves. Although the Amer-
ican League players still rule
favorites to reverse the decision
of a year ago, the odds are steadily
dropping.

"The Great Diamond Mystery" or "Who'll Win the Gail?" - By Feg Murray

SAYS HUGGINS

[BY A. P. NIGHT WIRE.]
NEW YORK, Oct. 3.—"We
have a great lot of pitchers,"
said Miller Huggins, Yankees
manager. "We have a terrific
hitter in Ruth—a game, hard-
hitting, fighting ball club—a far
better team than the one the
Giants beat last year. All the
men are physically fit, mentally
primed. We have just come
out of the toughest fight ever
waged for a pennant. On paper
the Yankees look stronger than the
Giants, but the series is not won
on paper."

Tournament at Angeles Vista Staged Soon

Plans are now being made by
Ralph Noble and Herbert White,
managers of the Angeles Vista golf
course, for their first official
tournament.

Blind bogey tournaments have
been held every Saturday for the
past three months for the purpose
of gathering the scores of the play-
ers in order to make an accurate
handicap for all players who enter
the president's cup affair, which
is being planned.

A number of good players have
been developed at the course dur-
ing the past few weeks and it is
expected that some of these will
figure quite prominently in the
tournament, which is being
planned. Foremost among these
stars stands Frans Osthaus, former
high school baseball player, who
has the record of making the
closest score to the record that has
been made by an amateur this
year. Another blind bogey will be
held Saturday for all players who
wish to enter and have a chance
to have a handicap computed.

SEEKS REINSTATEMENT
[BY A. P. NIGHT WIRE.]
NEW YORK, Oct. 3.—Harry
Groh of Pittsburgh, American light-
weight champion, has ap-
plied to the New York State Ath-
letic Commission for reinstatement.
Action by the commission
today was considered possible.

YANKS FAVORED TO WIN

Dope Indications Are That Huggmen Will Nab
Opener and Series, Says Fullerton

NEW YORK, Oct. 3.—Dope indications are that the Yankees will
win the opening game by a score of 9 to 4. McGraw seems determined
to stake everything on the first game, figuring that if he can win it
with Nehf he will have an almost even chance to capture the cham-
pionship.

Huggins has decided to start
Bush, his pitching ace, although
Bullet Joe has had a bone-bruised
foot. Huggins is letting McGraw
do the guessing as to how to match
pitcher against pitcher, in itself
a big advantage to the Yankees.
The Yankee slump in the last five
games of the season has encouraged
the Giants, but it means little in
the dope. The Giants now figure
to hit Bush a trifle harder in the
first game than in his second, and
should score four runs. Nehf may
last out the first game, in which
case the Yankees will not make
nine runs. The approximated dope

MATTY WILL SEE CLASSIC

[BY A. P. NIGHT WIRE.]
NEW YORK, Oct. 3.—"Big Six"
real game "Matty" has seen in
three years, since he began and
won the fight for health shattered
by war experience.
Out of more than a decade of
brilliant pitching achievement,
"Matty" record of three shut-
outs in the 1908 series, when the
Giants defeated the Athletics,
stands by itself in a niche of the
hall of fame. He also was with the
Giants in the series of 1911, 1913
and 1918.

McGRAW SAYS

[BY A. P. NIGHT WIRE.]
NEW YORK, Oct. 3.—"I look
for a higher grade of baseball
this year than we had a year
ago," John McGraw, manager
of the Giants, declared. "This
may be contrary to general
opinion, but it's my story. A
year ago both teams were a bit
laid up and it took some time
for the tension to lessen. This
year both have gone through
another pennant-winning cam-
paign, and this, added to the ex-
perience they got in the series
of 1921, should result in an ab-
sence of nerves. Both should
play at their best."

Tennis Plans Are Again in the Limelight

The annual Southern California
trophy handicap tennis tourna-
ment will start on the courts of
the Los Angeles Tennis Club next
Saturday and will continue over
October 14. It was stated yester-
day by S. M. Sinsabaugh, who is in
charge of the affair.

Men's boys' and women's singles
are all of the events which will be
played. All entries for the boys'
event must be over 15 years of age,
it was announced.

WASHINGTON SPORT FUND SHOWS DEFICIT

[BY A. P. NIGHT WIRE.]
SEATTLE, Oct. 3.—A deficit of
\$14,000 in sports at the University
of Washington, attributed largely
to a guarantee of \$10,000 made
when Penn State was brought here
last year to play football, is likely
to cause the abandonment of base-
ball, says Darwin Melneut, gradu-
ate manager of athletics. Basket-
ball and debating may also be elim-
inated.

NEVER SAY DIE SPIRIT RULES NEW YORK GIANTS

National League Champs Much
Weaker Than Last Season's
Team Says George Sisler

BY GEORGE SISLER,
Honored as Most Valuable Player of 1921
[EXCLUSIVE DISPATCH.]

NEW YORK, Oct. 3.—Every time I have seen the Giants
play there has been one outstanding factor in their work-
aggressiveness. They never seem to be licked. Players on
every club in the National League have told me that. There
is a saying that when the Giants are at the Polo Grounds "the
ninth inning is as good as all the other eight."

But outside of that valuable
punch and the unquestioned genius
of McGraw on the bench, the Gi-
ants in my opinion are much weak-
er than last October.

A DISAPPOINTMENT
The windup in the American
League has been a very great dis-
appointment to the St. Louis play-
ers. We had hoped to get a crack
at the National League champions
and I feel sure we would have done
that which the Yankees failed to do
in the last World Series.

It was frequently mentioned that
the Browns might blow up in the
annual classic because none of the
regular players have ever been in
a World Series. Chick Shorten,
our utility fielder, played in the Red
Sox series. But this, if anything,
would have spurred us on.
Shocker would have pitched two

A LONG AND SAD FARWELL TO THE WAD FAMILY!

NOTE: "The Times" Daily Wad Comic-Strip Contests Has Been Discontinued Until Further Notice. The Wad family, whose daily adventures in Los Angeles have amused Times readers for the past year, during which time more than \$1500 has been paid by The Times for available ideas for the Wad strip, demands a vacation. Its members point to the fact that more things of a strenuous nature have happened to them in that time than to any other family in Los Angeles and they insist upon a rest. Watt and Elva are going East to college, and Gunn has to go to school, too, his father is taking Mrs. Wad and the baby to Honolulu, and Tight says he will go along if Mr. Wad pays his way, not otherwise. For these reasons the Wad comic strip is discontinued for the present. The prize-winning ideas submitted during the last week and possibly a few others will appear in this space.
